PROFESSIONAL SUMMARY

I am a Computer Science undergraduate skilled in C++, Python, JavaScript, and modern frameworks. Enthusiastic about designing robust, scalable backends, intuitive web apps, and practical AI pipelines that solve real problems.

EDUCATION

BTech in Computer Science and Engineering, Amity University, Noida 2023 - 2027

CGPA : 9.61/10.0

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Networks

CBSE Senior School Certificate Examination, Army Public School, Shillong 2020 - 2022

Score: 97% Regional Topper

MBOSE SSLC Examination, St. Thomas Higher Secondary School, Shillong 2008- 2022

Score: 94.16% State Topper (second position)

SKILLS

Technical Skills :

Programming Languages: C++, C, Python, Java

Frontend Technologies: HTML5, CSS3, JavaScript, TypeScript, React, EJS, Bootstrap

Backend & Frameworks: Node.js, Express.js, Flask

Databases: MongoDB, MySQL

Machine Learning & Data Science: PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, OpenCV Tools & Version Control: Git, GitHub, Postman

Soft Skills :

Problem Solving , Leadership, Teamwork, Communication, Time Management, Adaptability

EXPERIENCE

Backend Development Intern Jan 2025 – April 2025

Conversia

- Maintained and optimised backend systems for an agentic AI startup.
- Refactored legacy codebase to enhance application performance, scalability, and maintainability.

Software Development Intern Jan 2025 - Feb 2025

Kernel Synergy

- Built and deployed a full-stack note-taking API with user authentication and robust error handling.
- Created a MERN-stack community event platform that streamlined event management, reducing manual coordination efforts by 40%.

PROJECTS

Deepfake Detection System

Engineered a deepfake detection pipeline using ResNet and LSTM (97% test accuracy on FF++ and Celeb-DF), streamlining video frame extraction and feature fusion with PyTorch and OpenCV for robust classification. (Check it here)

Sign Language to Speech Recognition
Designed a real-time sign language recognition system using YOLOv11, MediaPipe, and a modular CNN-LSTM in PyTorch,enabling gesture prediction and speech output for accessibility. (Check it here)

EXTRA-CURRICULAR ACTIVITIES AND CERTIFICATIONS

- **Open-Source Contribution:** Contributed to SSOC'25 and selected for OSCI'25; collaborated on real-world open-source projects with global developers.
- **Hackathons:** Took part in national-level hackathons, building innovative solutions under tight deadlines.
- **Certifications:** Microsoft Learn — Professional Contributor, MLSA Study Camps, NPTEL Python for Data Science (Top 5%).

HONORS AND AWARDS

- 100 % Scholarship at Amity University.
- State and Regional Topper in Class X and XII board exams
